

# Honolulu International Airport 2013 Construction Site Runoff Control Program Training

The Department of Transportation, Airports Division (DOTA) is providing mandatory annual training on the airport's construction site storm water program on November 14<sup>th</sup> from 10 AM to 11 AM at the Interisland Terminal 7th Floor Conference Center, Room 3. In accordance with the DOTA NPDES permit No. HIS000005 and associated Storm Water Management Program Plan (SWMPP), all parties involved with construction project responsibilities, including DOTA engineers, inspectors, contractors, consultants, and designers, are **required** to complete annual training. The training event on November 14<sup>th</sup> is **mandatory** for DOTA Engineers and Project Managers. Contractors, consultants, inspectors, and designers may attend the event or complete the training online at: <http://hidot.hawaii.gov/airports/doing-business/engineering/environmental/construction-site-runoff-control-program/>. Note that the online training will be updated based on this 2013 training event shortly. Please check the website for the most updated version.

**Schedule of events:**

- Survey on the DOTA's construction site runoff control program.
- EPA video.
- Speakers:
  - Ford Fuchigami, Deputy Director – Airports
  - Gerald Takayesu, P.E., City and County of Honolulu, Storm Water Quality Branch
  - Katie Davis, CISEC, EnviroServices and Training Center, LLC (DOTA Environmental Consultant)
