

SECTION 620 - WATERING

620.01 **Description.** This work includes furnishing, transporting and applying water to lessen dust nuisance within the project limits. *|

620.02 **Materials.** None specified. |

620.03 **Construction Requirements.** The Contractor shall water by a pressure type tank truck equipped with a spray system and adequate control apparatus. *|
The Contractor will insure uniform application of water. The Contractor may *|
use other accepted watering systems such as pipe, hose and spray apparatus, *|
only if the Contractor can control the system to insure uniform application *|
of water at desired rates. *|

The Contractor shall water as conditions may require. The Contractor *|
shall prevent water from wetting vehicles, pedestrians, and existing *|
pavements. The Contractor shall repair or compensate damages caused by *|
watering at no cost to the State. *|

The Contractor shall be responsible for furnishing and applying water. *|
If the Contractor fails to lessen dust nuisance, the Engineer may order the *|
work suspended until the Contractor lessens the nuisance or the Engineer may *|
have such work done by others and deduct the cost from payments due to the *|
Contractor. *|

620.04 **Method of Measurement.** The Engineer will not measure watering for *|
payment. |

620.05 **Basis of Payment.** The Engineer will not pay for watering separately. *|
The Engineer will consider watering incidental to the various contract item. *|
