

# PUBLIC INFORMATIONAL MEETING FOR PUAINAKO STREET WIDENING, KOMOHANA STREET TO KĪLAUEA AVENUE

The State Department of Transportation (DOT), in conjunction with the Federal Highway Administration (FHWA), is proposing the partial realignment and widening of Puainako Street from the east side of Kīlauea Avenue intersection to Komohana Street. The segment from the vicinity west of the Waiākea Schools complex to Komohana Street will consist of construction of a new four lane roadway along a new alignment. The portion along the front of the Waiākea Schools complex to the east side of Kīlauea Avenue will be a widening of the existing Puainako Street from two to four lanes. Improvements within the corridor, which is approximately 1.5 miles in length, will include sidewalks and bicycle lanes, drainage structures, traffic signals, retaining walls, sound walls, raised and at-grade medians, and landscaping.

## **5:15 PM OPEN HOUSE PORTION**

- Station 1: Project Location and Roadway Plan View Exhibits**
- Station 2: Section 106 Information**
- Station 3: Roadway Typical Sections**
- Station 4: Access Flow Charts**

## **6:00 PM FORMAL PRESENTATION**

- Welcome and Introduction**
- Purpose and Need of the Project**
- Project History and Description**
- Existing Concerns**
- EIS Re-evaluation**
- Proposed Design**
- Project Impacts and Access Changes**
- Section 106 Process**
- Construction Phasing**

## **6:45 PM NEXT STEPS AND CLOSING**

- Question and Answer Session**
