APPENDIX B

PLAN REVIEW
# Appendix B: Plan Review

Each of the reviewed plans provided recommendations to address transportation needs. The following table provides an overview of the relevant recommendations, which include actions such as expanding awareness of services, improving transit service delivery, establishing partnerships, and funding mobility managers, among others.

## Recommendations from Reviewed Plans

| **General Plan**              |      |                                       | **Plans and Studies:** Implement Short-Range Transit Plan.  
Complete a Mid-Range (4-7 year) Transit Plan  
**Projects and Programs:** Increase mainline service frequency (30 minutes, and 15 minutes at peak).  
Identify and implement service modernization features (e.g., GPS location and integration with transit apps, electronic fare recovery, rider amenities, etc.).  
Focus initial phases of service expansion in areas of highest ridership potential.  
Improve bus route and schedule information.  
Complete bus shelters and amenities at 50 priority bus stops.  
Identify priorities for ADA-compliant pedestrian access to bus stops, and develop a construction schedule and funding plan for priority projects.  
**Partnership Needs:** Expand the bulk bus pass program.  
Coordinate with HDOT to incorporate transit stops and pullouts on State Highway projects.  
Work with public and private stakeholders to establish a dedicated funding source for transit.  
Partner with HDOT to design bus stops on rural highways. |
| **Multimodal Land Transportation Plan** |      |                                       | **Short-Term** Install shelters at highest priority bus stops.  
Work with HDOT to complete a conceptual design study for the top 25 busiest stop locations.  
Gradually increase monthly pass rates to be more in line with single-ride fares.  
Implement a discounted, bulk-rate, commuter pass program.  
Transition to smart cards, and away from cash fares.  
Establish a GPS-based route and schedule information system.  
Install GPS tracking devices on buses.  
Develop a real-time online bus tracking map.  
Increase information and amenities available online.  
Continue improving service levels to meet demand. |
|                               | 2012 | County of Kaua‘i Transportation Agency |                                                                                                                                    |
|                               | 2012 | County of Kaua‘i Transportation Agency | **Mid-Term** Develop criteria for implementation and prioritization of new local circulators.  
Implement at least one new circulator.  
Complete short range (1-3 years) transit service and operations planning every three years.  
Update mid-range (4-7 years) strategic plans every five years. |

| Statewide Mobility Management Report     | 2014 | State of Hawai‘i Department of Health                                        | Fund local mobility projects identified by the county as priority strategies (establishing mobility managers, supporting public education and outreach plans, building web-based directories and search tools)  
Provide state leadership and coordination for the four counties to leverage federal funding  
Establish statewide purchasing cooperative among counties and human service providers to procure new vehicles, technologies, equipment  
Support permanent funding source in any future state or local tax initiative for human service transportation                                                                                                                                                                                                                                                                                                                                 |
| Federal-Aid Highways 2035 Transportation Plan for Hawai‘i District | 2014 | HDOT                                                                               | No instructive recommended actions                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Coordinated Plan                         | 2011 | HDOT                                                                               | **State and Local Action:**  
Reconvene local mobility work groups  
Review top priority strategies and identify short list of viable projects that can be implemented within available funds  
Apply for federal funds  
Technical support and funding (to be provided by the State)  
Update the Needs Assessment  
**Funding Priorities:**  
Expand/improve service operations  
Replace or expand vehicles/other capital infrastructure  
Mobility management                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

Appendix B: Plan Review
Updates from 2011 Coordinated Plan

The HDOT CSP 2020+ serves as an update to the previous Coordinated Plan released in 2011. To understand the progress that has been made on recommendations from the 2011 Coordinated Plan, the project team consulted with members of the Advisory Committee. Only the recommendations identified as Category A (top priority) in the 2011 Coordinated Plan are listed below.

### Status of Recommendations from 2011 Coordinated Plan

<table>
<thead>
<tr>
<th>Strategy</th>
<th>Description</th>
<th>Implementation Status</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Hawai‘i County</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Develop a countywide vehicle replacement schedule</td>
<td>Determine optimal number of smaller vehicles. Explore cost effective opportunities for nonprofits to purchase surplus public agency vehicles, including vanpool vehicles.</td>
<td>Work in progress to get more vehicles (considerations include IFBs, RFPs and updating future grants to meet environmental objectives).</td>
</tr>
<tr>
<td>Establish a mobility manager position (within an existing agency)</td>
<td>Develop and staff a coordination council, prepare a coordination action plan, seek and apply for relevant grant funds, develop and conduct a travel training program, and facilitate training opportunities.</td>
<td>Supplemental budget request may be made for this hiring. CDBG funding will be pursued for this project.</td>
</tr>
<tr>
<td>Develop a transportation financial plan</td>
<td>Develop a long-term financial plan and advocacy strategy to seek new sources of funds in addition to federal funds.</td>
<td>Currently using GET/federal funds to cover needs while looking at grant opportunities. Plan was completed in 2018.</td>
</tr>
<tr>
<td><strong>Kaua‘i County</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Purchase of accessible vehicles</td>
<td>This strategy includes capital projects to purchase wheelchair accessible vehicles to add to various providers’ fleets in the County of Kaua‘i.</td>
<td>All purchased public transit vehicles are now wheelchair-accessible.</td>
</tr>
<tr>
<td>Subsidized taxi voucher program</td>
<td>User subsidy for seniors and/or people with disabilities to allow for purchase of vouchers for taxi service.</td>
<td>Not a priority, as other agencies may be more suitable for administering this program.</td>
</tr>
<tr>
<td>Funding for free/reduced bus passes</td>
<td>This strategy involves nonprofit organizations identifying and accessing additional sources of funding to provide deeper discounts on fares to their clients.</td>
<td>Council provided funds for this initiative. Working with agencies on the island to supply bus passes for their clients that they identify as those with most need.</td>
</tr>
<tr>
<td><strong>Maui County</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Lead agency for human service transportation coordination</td>
<td>County of Maui should lead in Human Services Coordination with some level of centralized action.</td>
<td>MEO has helped centralize some of this coordination.</td>
</tr>
<tr>
<td>Better coordination between Public Transit with Human Services Transportation</td>
<td>This strategy involves the development of bus stops and/or transfer points between Maui Bus and Human Services Agencies</td>
<td>Working on making bus stops more accessible. The need for transfer points has diminished with curb-to-curb service design.</td>
</tr>
<tr>
<td>Coordinated training</td>
<td>Coordinating periodic training for drivers and other personnel</td>
<td>Service providers continuously and retraining drivers on annual basis.</td>
</tr>
</tbody>
</table>
APPENDIX C

Provider Survey and Results
Appendix C: Provider Survey and Results

The project team distributed an online survey to obtain input from the transportation providers regarding the services they provide as well as the transportation successes and challenges they or their clients encounter. The online survey was distributed to stakeholders in May 2021 through the SurveyMonkey application. A total of 33 organizations provided feedback. Results are presented and summarized in this appendix.

Respondent Overview

Most survey respondents serve Kaua‘i, Maui, and Hawai‘i Counties. In addition to these counties, one respondent (Easterseals Hawai‘i) also serves Oahu (Honolulu County). The following section highlights participating organizations by county:

Hawai‘i County – 8 respondents:
- Hawai‘i County Economic Opportunity Council
- People’s Advocacy for Trails Hawai‘i
- Kona Adult Day Center, Inc.
- Ace 1 Taxi LLC
- Disability Rights Hawai‘i
- Arc of Kona
- Ho‘oNani Adult Care Services, Inc.
- Coordinated Services for the Elderly

Kaua‘i County – 15 respondents:
- Kaua‘i Medical Transport Inc.
- The Hanalei Initiative
- YWCA Kaua‘i
- West Kaua‘i Minister’s Association
- Regenerative Living Inc.
- Hale Opio Kaua‘i Inc.
- Friendship House
- State of Hawai‘i, Fifth Circuit Court, Kaua‘i Drug Court
- Catholic Charities Hawai‘i-Kaua‘i Community Office
- DHS/Vocational Rehabilitation/Kaua‘i Branch
- Regency at Puakea
- Kaua‘i Care Center
- Easterseals Hawai‘i
- Kaua‘i Economic Opportunity, Incorporated
- The County of Kaua‘i Transportation Agency

Maui County – 9 respondents:
- Maui Health
- Community Clinic of Maui, Inc. dba Malama I Ke Ola Health Center
- Maui Adult Day Care Centers
- Lāna’i Senior Center
- Ka Lima O Maui
- County of Maui Dept. of Transportation
- Na Hoaloha
- Kaunoa Assisted Transportation
- Maui Economic Opportunity (MEO)

Statewide – 1 respondent:
- Easterseals Hawai‘i

Surveyed organizations provide services to a variety of vulnerable individuals, ranging from youth to those in recovery from substance abuse. Figure C-1 provides an overview of the demographic groups that each organization serves. Most organizations provide services to people with physical disabilities (76%), seniors (70%) and individuals with developmental or cognitive disabilities (67%).

Most surveyed organizations provide services in Kaua‘i, Maui and the Big Island. Although most organizations provide services in the entire areas of the island they serve, some cover only specific locations. Similarly, a majority of organizations answering the survey (18 respondents) directly provide rides, while nine fund or contract transportation services and other programs. Six organizations indicated that they do not directly provide transportation services nor do they fund or contract transportation services and other programs.

Overview Of Services

Types of Transportation Services Provided

This section provides information regarding the types of services provided in each county. Responses from Easterseals Hawai’i are included within each section, as this organization serves all counties covered by HDOT CSP 2020+ (Easterseals Hawai’i indicated providing program transportation). It should be noted that some survey respondents provide multiple types of transportation services (and that some may have skipped the question because they do not provide transportation services).

Services in Hawai’i County

As observed in Figure C-2, 57% of respondents indicated providing program transportation in Hawai’i County, followed by non-emergency medical transportation (43%) and fixed-route service (29%). The respondent organization selecting Other provides bikeshare service. A total of seven providers serving Hawai’i County provided answers, while two skipped this question.

![Figure C-2 Hawai’i County: Services Provided](image)

Services in Kaua’i County

As observed in Figure C-3, 71% of respondents provide non-emergency transportation in Kaua’i County, followed by demand-response service (57%) and program transportation (43%). The respondent organization selecting Other also provides emergency/disaster evacuations services. A total of seven providers serving Kaua’i County provided answers, while nine skipped this question.

![Figure C-3 Kaua’i County: Services Provided](image)
**Services in Maui County**

As observed in Figure C-4, 80% of respondents provide non-emergency medical transportation and demand-response service in Maui County, followed by program transportation (40%).

A total of five providers serving Maui County provided answers, and five skipped this question.

**Figure C-4 Maui County: Services Provided**

**Trip Purposes by County**

Respondents were asked to indicate the top five destinations for their customers. The bullets below summarize highlights of the top destinations, organized by county:

- **Hawai‘i County**: Grocery stores and adult day care services, followed by trips to financial institutions, for entertainment purposes, and trips to customer’s homes. Medical purposes were also highlighted as important destinations.

- **Kaua‘i County**: Medical services, shopping destinations, social and governmental services, employment access, transit stops, and recreational destinations. Educational destinations and access to financial institutions were also highlighted by surveyed organizations.

- **Maui County**: Adult day care, shopping, and healthcare destinations. They are followed by recreational destinations and access to transportation and employment options.

- **Easterseals Hawai‘i** provides services across the state. Top destinations for this organization include recreational opportunities and shopping destinations.
Successes and Challenges

This section provides an overview of successes and challenges, as well as transportation needs and gaps, that were expressed by survey respondents. Answers are further examined in the sections below, organized by county.

Successes

Respondents were asked to share public transit/human services transportation successes in their community. The responses to the open-ended question include:

Hawai‘i County
- We are able to get clients from their home to our program...
- Clients are able to use services to get to doctors’ visits and shopping for daily essentials because a lot of the clients are low income with no transportation
- Taxi voucher program worked well for some, paratransit works well for some, but for most people accessible buses have worked the best...
- Hele-On Kako‘o paratransit services has provided Excellent Services to our participants for their transportation needs; reliably, safely and always the Best Customer Service during the last year...

Kaua‘i County
- County Buses, WKMA free bus passes (10 maximum per month)
- County of Kaua‘i providing Hale Opio Kaua‘i with a grant for bus passes to provide to clients
- Having various schedules around the island helps our clients get to work, visit family and friends, attend substance abuse treatment and AA/NA meetings in the community.
- There is a bus stop at Friendship House and the members really appreciate being able to utilize public transit to come to the Clubhouse. One of our clients recently stated, ‘I feel lucky that I get to take the Kaua‘i Bus.’
- Catholic Charities Hawai‘i on Kaua‘i provides assistance with bus passes to the most vulnerable populations such as elderly, disabled, and homeless, the program is highly utilized and there is always a wait list.

Partnering with the County the past year has been great and I hope to continue the partnership.
- Public transit allows our clients the ability to move about in the community to be self-sufficient and productive.
- Kaua‘i Medical Transport was mentioned as a success story.
- Kaua‘i Economic Opportunity provides Kaua‘i Bus pass for homeless individuals to find jobs, housing and for medical appts. The senior congregate meals and senior center participants are transported to their program sites at various neighborhood centers via the Kaua‘i Bus paratransit.

Maui County
- MEO specializes in dial-a-ride service
- Just recently started program with RoundTrip. Successes so far include troubleshooting late pickups/drop-offs and assistance with rescheduling rides.
- We are so grateful for the partnership we have with MEO Transportation to transport some of our clients who may not be able to attend adult day care due to not having the transportation.
- Providing a variety of transportation services to our senior citizens around the island of Lāna‘i to allow them to maintain their independence as long as we can.
- …with Maui Bus and Human Services Transportation, transportation is provided to many residents and visitors. Human Services Transportation is free of charge while Maui Bus has a fare system. This allows riders to live, work and play. They are able to get out and run errands and live their lives.
- Providing dependable, on-time transportation for medical care, especially for cancer treatment, wound care, specialized eye care, over a regimented course of treatment.
• Youth Transportation on all islands. Rural Shopping shuttles. Transportation for persons with disabilities living outside the paratransit service area.

**Top Challenges**

Respondents were asked to select the top three transportation challenges faced by their clients. Additionally, they had the option to select Other and provide details through open-ended responses. Challenges ranged from access and accessibility challenges to hours of operation.

For Hawai‘i County (Figure C-5), the transportation challenges most selected by respondents were 1) eligible trip purposes are limited, 2) important destinations are not serviced by public transit, and 3) bus stops are not close enough to residences and/or destinations. A total of eight providers answered this question. Lastly, the following write-in responses were provided:

- 90% of clients have a one form of dementia or another unable to travel alone.
- Door-to-door services require booking too much in advance.

**Figure C-5 Hawai‘i County: Top Transportation Challenges**

<td>15%</td>
</tr>
<tr>
<td>Customers need assistance when traveling (door-to-door or curb-to-curb).</td>
<td>10%</td>
</tr>
</tbody>
</table>
For Kaua‘i County (Figure C-6), the top transportation challenge selected by respondents was bus stops are not close enough to residences and/or destinations. A total of fourteen providers answered this question. Lastly, the following write-in response was obtained from the organization that selected Other:

- We have participants that use paratransit regularly that have been placed on a waitlist for what seems to be ongoing. We need to keep calling reservations to update their needs often. If there is a waitlist that seems endless, more paratransit buses should be made available.

**Figure C-6 Kaua‘i County: Top Transportation Challenges**
For Maui County (Figure C-7), the top transportation challenge selected by respondents was public transit service does not operate late enough in the evening. A total of seven providers answered this question. Lastly, the following write-in response was obtained from the organization that selected Other:

- Some services are not available on the weekend unless it’s paratransit.

### Figure C-7 Maui County: Top Transportation Challenges

- Public transit service does not operate late enough in the evening.
- Bus stops are not close enough to residences and/or destinations.
- Customers need assistance when traveling (door-to-door or curb-to-curb).
- An accessible vehicle is not always available.
- Path to bus stops or stations is not accessible for those with mobility devices.
- Transit trips to some destinations are too time-consuming.
- Public transit service does not operate on weekends.
- Other (please specify)
- Important destinations are not serviced by public transit.
- Transportation options are too expensive.

Lastly, for Easterseals Hawai’i, which serves multiple counties, the top three transportation challenges faced by their customers include:

- Transit trips to some destinations are too time-consuming.
- An accessible vehicle is not always available.
- Transportation options are too expensive.
Additional Comments

Respondents were given an opportunity to provide additional comments regarding transportation needs, gaps, or challenges experienced by their customers/clients. The responses to the open-ended question include:

Hawai‘i County
- Cost is a barrier, including the fact that vouchers are not enough to cover costs.
- Wait time for pick up is extensive.
- Individuals need assistance when traveling. Many providers are not skilled in providing necessary support for clients. Also, more wheelchair accessible vehicles are needed.
- Information is not easy to access.
- Limited public transit system overall, and limited transportation options.
  - Transportation from Oceanview into Kona is needed

Kaua‘i County
- Not enough highway access for more fixed route bus stops, and some stops are far from shelters/homes. Bus stops can be unsafe/not well lit at night.
- Expanded weekend hours.
- Paratransit is not always practical or available.
  - Extended waits/rides in paratransit service.
- Transportation can be unaffordable for many. Some individuals do not qualify for discounted bus pass rates.
- Lack of technology access for seniors (unable to use rideshare apps).
- Bus routes into Poipu needed.
- Issues with timeframe requirements to place reservations for paratransit services (sometimes, individuals are told they are calling too early to place reservations).
- Unnecessary to place individuals in a waitlist if they request regular services.
- Lack of sufficient shuttle system volume to operate with enough frequency to be satisfying to all customers and clients.

- Alternative transportation options (for example, lower capacity private passenger vehicles parking at Haena State Park parking lot) are a preferred customer option due to price and convenience, undermining shuttle system viability and negatively impacting operational stability.

Maui County
- Demand for the MEO services exceeds what is available. Not enough drivers, resulting in a lack of services for some areas and on passengers staying too long in the bus for others to be dropped off (which can be challenging for frail passengers and those with dementia).
- No public transit on Lāna‘i other than what is offered by Maui Economic Opportunities. Services may not be available depending on their hours of operation.
- Long wait times.
- Not enough drivers to accommodate demand during peak hours, and lack of assistance for frail passengers.
- Based on a survey from the Maui MPO’s Hele Mai Maui plan:
  - ‘Riding the bus on Maui would be better if....’
    ◦ 51% said if the bus came more often
    ◦ 49% said better bus shelters
    ◦ 38% said early and late times
    ◦ 37% said faster buses
    ◦ 37% said more transit maps
    ◦ 28% said other
APPENDIX D

Public Survey and Results
Appendix D: Public Survey and Results

About the Survey

In March 2022, the planning team spoke with locals across the State about transit. Pop-up public workshop locations were promptly arranged in central outdoors locations. People were asked to fill out brief questionnaires on their priorities and suggestions for transit improvements. Questionnaires were provided in paper form at the workshop locations and a link for completing an online survey was provided.

In total, the team visited 9 locations across 4 islands (the Big Island, Kaua‘i, Maui, Lāna‘i, and Moloka‘i), and members of the public completed 76 questionnaires. Additionally, people provided their verbal comments and learned about the role of HDOT and partnering organizations in providing public transportation to the target populations of this plan.

Workshop sites and results by county are summarized in Figure D-1.

• More frequent service  
• Free transit fares | • More frequent service  
• Service later at night  
• Hire more drivers or operators  
• Build new sidewalks or bus stops |

A reproduction of the printed questionnaire form is displayed on Figure D-2. It was printed on a single letter-sized paper. Questions and answer choices were limited to five (5) in number to ensure that the limited time and bandwidth of locals and other potential participants would be respected. Participants were also afforded flexibility in the form of multiple questions including an open-ended other option or answer prompt.
Public Transportation Survey

Aloha! Now, more than ever, Hawai‘i needs your help in identifying how to improve public transportation for you and your community.

Please answer a few quick questions. Your responses are 100% confidential.

1. What is your home zip code?

2. What should be done to make riding public transportation easier for you and your neighbors? Please pick THREE?
   - Purchase new vehicles
   - Hire more drivers/bus operators
   - Improve communications
   - Build new sidewalks or bus stops
   - Free transit fares
   - Provide service during more days of the week
   - Provide service earlier in the day
   - Provide service later at night
   - Provide more frequent service
   - Offer door-to-door assistance for passengers
   - Provide Pilot innovative services (e.g., direct transit you can request using a mobile app)
   - Other (please specify)

3. If you could improve **one thing about transportation in your neighborhood**, what would you do?

4. If you had to leave your home in an emergency, how will you be transported? Select all that apply.
   - I do not know
   - A friend/family member will drive me
   - My home/center/company has a vehicle
   - I can access a vehicle and am able to drive it
   - I will call my local volunteer driver program
   - I will ride public transportation
   - I will ride a taxi, Uber, or Lyft

5. Want to learn more? To sign up for news/alerts from the Hawai‘i Department of Transportation, please leave us your contact info. (OPTIONAL)

Mahalo!
Results

Question 1: Home ZIP Codes

Respondents were asked: What is your home zip code? and were presented with a blank box to enter the five digits representing their ZIP code.

Out of 76 questionnaires total, 72 responses to Question 1 were collected from people residing across least 35 ZIP codes in Hawai‘i.

Appendix D: Public Survey and Results

**Question 2: Multiple Choice of Transit Improvements**

Respondents were asked: **What should be done to make riding public transportation easier for you and your neighbors? Please pick THREE [3]**? There were 11 choices plus a 12th Other option that was open-ended. Some respondents provided less or more than the 3 choices requested.

Overall, interest was strongest in more frequent transit service, transit service spanning later into the night, and the construction of new sidewalks and bus stops. Respondents in Kaua‘i County were relatively less interested in more frequent service compared to late night service and new sidewalks or bus stops. Respondents in Hawai‘i and Maui Counties were also particularly interested in hiring more drivers and bus operators. Interest was lowest across the board for purchasing new vehicles, service earlier in the day, and providing pilot innovative services.

The percentage of responses to this question, broken down by the choices and County in which responses were provided, are profiled in Figure 4 while a comparison of responses overall is profiled in Figure D-5.

**Figure D-4 Respondent Preferences for Transit Improvements by County**

- Purchase new vehicles
- Hire more drivers/bus operators
- Improve communications
- Build new sidewalks or bus stops
- Free transit fares
- Provide service during more days of the week
- Provide service earlier in the day
- Provide service later at night
- Provide more frequent service
- Offer door-to-door assistance for passengers
- Provide pilot innovative services
- Other

14 respondents answered Other on Question 2, which are detailed in the following list. Some of these responses could be interpreted as a reaffirmation of choices which were already on the form, but were not counted as such (e.g., Shift workers need later transportation was not counted under Provide service later at night).

- More coverage (Hawai‘i County)
- Receptacles, Recycle bins at stops, Water fountains (Hawai‘i County)
- Yearly pass for disabled (Hawai‘i County)
- Timely service (Hawai‘i County)
- [No additional detail provided] (Kaua‘i County)
- Proximity of stops, 20 minutes (Kaua‘i County)
- Bus every hour till 10pm (Kaua‘i County)
- Ferry to other islands (Maui County)
- For me they are doing their job well (Maui County)
- A bike share (Maui County)
- Shift workers need later transportation (Maui County)
- There’s no bus on Lāna‘i (Maui County)
- Just stop (Maui County)
- More stops, cheaper fare (Maui County)
**Question 3: Top Suggested Improvements**

Respondents were asked: If you could improve **one thing about transportation in your neighborhood**, what would you do?

A majority of respondents answered this prompt. Following is a list of full responses (edited for spelling if necessary), sorted by approximate location of workshop site:

**Hawai‘i (Hilo)**
- 2, 4, 9 [in reference to the options on question 2]
- More frequent service
- Roads
- More scheduled buses for the same destinations
- Provide input of consumers saying thank you more often to drivers
- Posted bus stop and schedule
- Develop routes further into neighborhoods (e.g. HPP, Hawai‘ian Beaches, etc.)
- Yearly pass for disabled people
- Use smaller vehicles so they move more nimble around the streets
- More availability and frequency
- Offer service to larger areas. Example, Fern Acres

**Hawai‘i (Kona)**
- Lottery
- Big Island needs more frequent + affordable public buses... ATM, it's very limited
- More in town shuttles in Kailua-Kona
- Bus service
- Carpool with people or offer a ride when going same direction
- Better communication on what is available & where
- Roads
- Include areas like ride-sharing apps for Holualoa
- More volume

**Kaua‘i**
- Have more bus stops
- Nearest bus stop is hard to get to (Lawai estates)
- There isn't much
- Newer buses
- Signage - caution
- None
- ?
- Have more bus stops
- Repave residential streets
- I don't think public transportation is in Puhi
- Increase routes
- Bus every hour till 10pm
- I kinda like the slow roads. Just walk around.
- It's doing great
- More bus stops around Lihue
- Make more bus stops
- More often every 1/2 hour
- More pick-up locations
- $10 car
- Free cars

**Maui**
- Need more
- Repave road fronting stop at St. Theresa's, South Kihei Road - asphalt is crumbling, trip hazard
- Help the elderly
- Bus stops closer to elderly homes on Maui, better sidewalks too
- Bus stop in Olowalu
**Molokaʻi**

- Door to door pick up drop off by appointment
- Funds goes to Maui Economic Opportunity, transportation service expansion in Molokaʻi
- More pickups and earlier Sunday bus
- More frequent buses schedule, routes more often, less tweakers on bus.
- Free and more frequent routes
- I like what services I have
- Have a Sunday ride
- Can’t think of anything
- To attend meetings or events later in the evening. Provide MEO service.
- Medical transportation
- Later schedule [+1]
- Make the bus stop closer to people’s home. Do later hours for those who finish work late.
- More frequency on Maui. Big discount for locals.
- Have more bus services later in day or evening

**Lānaʻi**

- Community meeting
- iPhone app with GPS & times
- Cater to the locals
- Have it be more available
- Have more of it more frequently
Question 4: Emergency Needs

Respondents were asked: If you had to leave your home in an emergency, how will you be transported? Select all that apply. Respondents were given the opportunity to select up to 6 distinct transportation modes, with a 7th option for I do not know.

Across all workshop county locations, the majority of respondents stated they would be able to access personal vehicle, in that they chose at least one of 3 options:

- A friend/family member will drive me.
- My home/center/company has a vehicle.
- I can access a vehicle and am able to drive it.

A significant number of respondents did not choose any of those options, and instead chose one of the following:

- I will call my local volunteer driver program
- I will ride public transportation
- I will ride a taxi, Uber, or Lyft

The difference in emergency needs can be seen in Figure D-6. The significantly higher proportion of people expecting to take transit, a volunteer driver, or Taxi/Uber/Lyft in Maui County is due to the high number of respondents in Moloka‘i.

Figure D-6 Consolidated Summary of Vehicle Access Needs in an Emergency by Workshop County Location

Question 5: Voluntary Information Signup

Respondents were asked: Want to learn more? To sign up for news/alerts from the Hawai‘i Department of Transportation, please leave us your contact info. (OPTIONAL) Respondents had several empty lines to provide an open-ended response to this question.

This question serves as a proxy for how many questionnaire respondents are genuinely interested in receiving information from HDOT, regardless of any single reason. In total, 15 (19.7%) provided their contact information (at least a name, email address, mailing address, or phone number). That information will be in the possession of HDOT, along with all the questionnaire results.
### Appendix E: Federal Funding Streams for Public Transportation

Federal funding for public transit comes primarily through the U.S. Department of Transportation (U.S. DOT). Funding for the U.S. DOT is authorized by the Infrastructure Investment and Jobs Act of 2021 (IIJA) that was passed on November 15, 2021. The following is a simplified overview of federal funding streams for public transportation potentially applicable to the rural jurisdictions covered by the Coordinated Statewide Plan, presented in alphabetical order.

<table>
<thead>
<tr>
<th>Federal Program</th>
<th>Eligibility</th>
<th>Application</th>
</tr>
</thead>
</table>
| **Accelerating Innovative Mobility (AIM)** ([Link](Link)) | Eligible activities include all activities leading to the development and testing of innovative mobility, such as:  
• Planning and developing business models  
• Obtaining equipment and service  
• Acquiring or developing software and hardware interfaces to implement the project  
• Operating or implementing the new service model  
• Evaluating project results. | Application opportunities are posted in the form of a Notice of Funding Opportunity (NOFO) ([link](Link) to March 2020 NOFO).  
In 2020, 25 public transit projects were selected across 24 states and 1 territory to receive $14 million in funding. Funding amounts ranged from $40,000 to $2.3 million. |
| **American Rescue Plan Act of 2021** ([link](Link)) ([fact sheet](fact sheet)) | Appropriations include:  
• $26.6 billion allocated by statutory formulas to urbanized and rural areas and tribal governments. Eligible activities for urbanized areas include  
  • Planning, engineering, design and evaluation of transit projects and other technical transportation-related studies  
  • Capital investments in bus and bus-related activities such as replacement, overhaul and rebuilding of buses, crime prevention and security equipment and construction of maintenance and passenger facilities  
  • Capital investments in new and existing fixed guideway systems including rolling stock, overhaul and rebuilding of vehicles, track, signals, communications, and computer hardware and software.  
  • Associated transit improvements and certain expenses associated with mobility management programs  
  • Preventive maintenance and some Americans with Disabilities Act complementary paratransit service costs  
  • $2.2 billion to FTA grant recipients in communities that demonstrate additional pandemic-associated needs. | Applications are competitive and submitted online ([2021 form](link)). FTA will send notification when funding is available for obligation through the Transit Award Management System (TrAMS). FTA most recently announced Notice of Funding Opportunity September 7, 2021 ([link](Link)). |
| **Better Utilizing Investments to Leverage Development (BUILD) Transportation Grants Program** (formerly TIGER) ([link](link)) ([press release](press release)) ([fact sheet](fact sheet)) | RAISE projects are rigorously reviewed and selected on merit based on statutory criteria of:  
• Safety  
• Environmental sustainability  
• Quality of life  
• Economic competitiveness and opportunity  
• State of good repair  
• Partnership and innovation | Current Notice of Funding Opportunity ([link](Link)) for $1.5 billion in total funding, representing a 50% increase in available funds compared to last year, when applicants requested $10 in funding for every $1 available.  
In 2021, 63 funded projects received funding amounts ranging between $2 million and $25 million ([fact sheet](fact sheet)).  
Deadline of April 14, 2022.  
Selections announced by August 12, 2022. |

<tr>
<td>Discretionary grant program funds transit capital investments, including heavy rail, commuter rail, light rail, streetcars and bus rapid transit. Fiscal years 2022-26 each have $3 billion in authorized funding subject to appropriation, with additional $1.6 billion per year in advanced appropriations. (<a href="#">funding info</a>)</td>
<td><strong>Small Starts</strong>  - Under IIJA, total project cost is less than $400 million and total Small Starts funding sought those seeking funding through the Expedited Pilot Program (EPD) or CIG is less than $150 million <a href="#">link</a>  - New fixed guideway systems (light rail, commuter rail etc.) - Extension to existing system - Fixed guideway BRT system - Corridor-based BRT system</td>
<td></td>
</tr>
<tr>
<td><strong>Enhances Mobility of Seniors and Individuals with Disabilities - Section 5310</strong> <a href="#">link</a></td>
<td><strong>Core Capacity</strong> projects are substantial corridor-based investment in existing fixed guideway system, which must:  - Be located in a corridor that is at or over capacity or will be in five years  - Increase capacity by 10%  - not include project elements designated to maintain a state of good repair</td>
<td>The $1.9 billion in available Section 5310 funds in the IIJA are apportioned among the states by a formula which is based on the number of seniors and people with disabilities in each state according to the latest available U.S. Census data.</td>
</tr>
<tr>
<td>Section 5310 provides formula funding to states for the purpose of meeting the transportation needs of the elderly and people with disabilities when the transportation service provided is unavailable, insufficient, or inappropriate to meeting these needs.</td>
<td>Eligible project examples include:  - Buses and vans  - Wheelchair lifts, ramps, and securement devices  - Transit-related information technology systems  - Mobility management programs  - Acquisition of transportation services under a contract, lease, or other arrangement  - Travel training  - Volunteer driver programs  - Building an accessible path to a bus stop  - Improving signage, or wayfinding technology  - Incremental cost of providing same day service or door-to-door service  - Purchasing vehicles to support new accessible taxi, ridesharing and /or vanpooling programs  - Mobility management programs</td>

</table>
| **Enhancing Mobility Innovation** [link]  
Promotes technology projects that center the passenger experience and encourage people to get on board, such as integrated fare payment systems and user-friendly software for demand-response public transportation.  
The federal share of project costs under this program is limited to 80%. | Eligible projects fit under one of two topical areas:  
1) Develop novel operational concepts and/or demonstrate innovations that improve mobility and enhance the rider experience, focused on innovative service delivery models, creative financing, novel partnerships, and integrated payment solutions, or other innovative solutions.  
   • This includes all activities leading to uncovering the next iteration of promising technologies, practices and strategies that accelerate innovations in mobility for transit, including, but not limited to, technology scanning and feasibility analysis, stakeholder engagement and outreach, planning, acquiring essential equipment or services, project implementation, modeling forecast of climate and equity impacts of proposed novel concepts and evaluating project results.  
2) Develops software to facilitate demand-response public transportation that dispatches transit vehicles through riders’ mobile devices or other means.  
   • Eligible activities may include establishing user needs; defining system requirements; development, validation and verification of the software; modeling and simulation; and/or pilot implementation, with a software solution. | On November 12, 2021, FTA released a Notice of Funding Opportunity (NOFO) to solicit project proposals for the Enhancing Mobility, Innovation Competitive Funding Opportunity. The NOFO made available $2 million in Fiscal Year 2021 funds.  
Project proposals were due January 11, 2022 |
| **Expedited Project Delivery (EPD) Pilot Program - Section 3005(b)** [link]  
Aimed at expediting delivery of new fixed guideway capital projects, small starts projects, or core capacity improvement projects.  
These projects must:  
• Utilize public-private partnerships  
• Be operated and maintained by employees of an existing public transportation provider  
• Have a federal share not exceeding 25% of project cost | Eligible projects are new fixed guideway capital projects, Small Start projects, or Core Capacity improvement projects that have not entered into a full funding grant agreement with FTA. The law defines these types of eligible projects for the EPD Pilot Program in a manner similar to, but not entirely the same as, FTA's Capital Investment Grants (CIG) program. | Applications are be accepted on a rolling basis until up to eight grants are awarded, subject to funding availability. FTA will notify applicants in writing within 120 days after the receipt of a complete application whether the application has been approved.  
Application portal [link]  
FTA last announced a Notice of Funding Opportunity on July 28, 2020 [link] |
| **Ferry Service for Rural Communities**  
Recipients of State of Good Repair (5337) are ineligible. | Capital and operating assistance for a ferry service that operated a regular schedule at any time during the five-year period ending March 1, 2020 and served not less than two rural areas located more than 50 sailing miles apart.  
In addition, FTA adds amounts apportioned according to the Growing States formula on land area. No state may receive more than 5% of the amount apportioned for land area. In addition, FTA adds amounts apportioned according to the Growing States formula factors to rural areas. Each state prepares an annual program of projects, which must provide for fair and equitable distribution of funds within the state and must provide for maximum feasible coordination with transportation services assisted by other federal sources.  
FTA must make 15% of the Section 5311 funds available in each state for improvement of intercity bus services, also known as the Section 5311(f) program. The funds are to be used for planning, infrastructure, and operating needs related to the linkage of cities through intercity bus carriers, unless the chief executive officer of the state certifies that the intercity bus service needs of the state are being met adequately. If all funds are not obligated to intercity bus improvements, the funds may revert to the general Section 5311 program for public transit in rural areas. | On an annual basis through FY 2026, IIJA allocates about $200 million for this program. [link] |
| **Formula Grants for Rural Areas - Section 5311**  
Formula funding to states for the purpose of supporting public transit in rural areas with a population of less than 50,000, where many residents often rely on public transit to reach their destinations.  
The program also provides funding for state and national training and technical assistance through the Rural Transit Assistance Program (RTAP) also known as the Section 5311(b)(3) program [link] | Eligible activities include capital, operating, and administrative assistance to state agencies, local public bodies, nonprofit organizations, and operators of public transit service.  
FTA bases 80% of the statutory formula on the rural population of the states and 20% percent of the formula on land area. No state may receive more than 5% of the amount apportioned for land area. In addition, FTA adds amounts apportioned according to the Growing States formula factors to rural areas. Each state prepares an annual program of projects, which must provide for fair and equitable distribution of funds within the state and must provide for maximum feasible coordination with transportation services assisted by other federal sources.  
FTA must make 15% of the Section 5311 funds available in each state for improvement of intercity bus services, also known as the Section 5311(f) program. The funds are to be used for planning, infrastructure, and operating needs related to the linkage of cities through intercity bus carriers, unless the chief executive officer of the state certifies that the intercity bus service needs of the state are being met adequately. If all funds are not obligated to intercity bus improvements, the funds may revert to the general Section 5311 program for public transit in rural areas. | The IIJA allocates over $4.6 billion in total funding from FY 2022 through FY 2026.  
For the RTAP program. FTA allocates $85,000 to each state and then allocates the balance of funds to each state based on an administrative formula using the non-urbanized population according to the most recent decennial census. |

</table>
| Metropolitan & Statewide Planning and Non-Metropolitan Transportation Planning - 5303, 5304, 5305 (link) | Provides funding and procedural requirements for multimodal transportation planning in metropolitan areas and states. Planning needs to be cooperative, continuous, and comprehensive, resulting in long-range plans and short-range programs reflecting transportation investment priorities. Eligible planning activities:  
  - Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency  
  - Increase the safety of the transportation system for motorized and nonmotorized users  
  - Increase the security of the transportation system for motorized and nonmotorized users  
  - Increase the accessibility and mobility of people and for freight  
  - Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns  
  - Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight  
  - Promote efficient system management and operation  
  - Emphasize the preservation of the existing transportation system | Funds are apportioned to states by a formula that includes each state's urbanized area population in proportion to the total urbanized area population for the nation, as well as other factors. States can receive no less than .5 percent of the amount apportioned. These funds, in turn, are sub-allocated by states to MPOs by a formula that considers each MPO's urbanized area population, their individual planning needs, and a minimum distribution. IIJA will be allocating between $185 million and $206 million for planning programs each year through FY 2026 (link). |
| Public Transportation Emergency Relief Program - 5324 (link)                  | The program allocates funds to assist public transportation systems in paying for protection, repair, and/or replacement of assets including structures, technology, vehicles and other equipment that are susceptible to destruction or have been destroyed in the wake of a disaster. The program authorizes the funding of the following activities:  
  - Operating costs of evacuation  
  - Rescue operations  
  - Temporary public transportation service  
  - Reestablishing, expanding, or relocating service before, during or after an emergency. | On March 13, 2020, FTA announced federal assistance under the Emergency Relief Program was expanded to help transit agencies respond to COVID-19 in states where the Governor has declared an emergency (link). |
| Public Transportation Innovation - 5312 (link)                               | Provides funding to develop innovative products and services assisting transit agencies in better meeting the needs of their customers. Eligible Activities  
  - Research  
  - Development  
  - Demonstration  
  - Deployment projects  
  - Evaluation of technology of national significance to public transportation | Funds may be allocated on a discretionary basis. No recent NOFAs available |
<p>| Real-Time Transit Infrastructure and Rolling Stock Condition Assessment Research and Demonstration Program (link) | This program is a research demonstration program and not a capital procurement program. The project proposals must include a research/synthesis phase, a development phase, and a demonstration phase. All phases are critical to project selection. To ensure proposed demonstration projects address the needs of transit agencies, FTA requires that applicants identify partnerships with at least one transit agency. FTA will assess the strength of those partnerships as part of its evaluation of applications. | Funding availability depending on FTA's Research, Development, Demonstration and Deployment Program. No recent NOFAs available. |</p>

<tr>
<td><strong>Redesign of Transit Bus Operator Compartment to Improve Safety, Operational Efficiency, and Passenger Accessibility (Bus Operator Compartment) Program</strong></td>
<td>Supports research projects to develop transit bus operator compartment designs that improve bus operator and public safety as well as bus operator access to vehicle instruments and controls without hindering the accessibility of passengers.</td>
<td>Last funding grants were announced October 8, 2020 for $9.1 million (link)</td>
</tr>
<tr>
<td><strong>Route Planning Restoration Program</strong></td>
<td>Through ARPA, the DOT announced the availability of $25 million for this program on September 14, 2021 (link)</td>
<td></td>
</tr>
<tr>
<td><strong>State of Good Repair (SOGR) Grants - 5337 (link)</strong></td>
<td>Funds through statutory formulas to pay for the development and implementation of transit asset management (TAM) plans. Funds can also be triggered to provide capital assistance for maintenance, replacement, and rehabilitation schemes of high-intensity fixed guideway and bus systems with the goal of maintaining public transit assets and ensuring their state of good repair.</td>
<td>IJJA has programmed over $4 billion annually for SOGR through FY 2026. (link)</td>
</tr>
<tr>
<td><strong>Technical Assistance and Standards Development - 5314(a)</strong></td>
<td>This funding intends to aid the development of technical assistance programs and actions that will enhance the service and operations of public transportation. Another goal of the funding is to bolster the development and support of transit workers.</td>
<td>Formula funding includes $82 million from FY 2022 through FY 2027.</td>
</tr>
<tr>
<td><strong>Transit Cooperative Research Program (TCRP) - 5312(i) (link)</strong></td>
<td>TCRP acts as an action-oriented research funding program that provides $34.4 million in funding for near-term solutions for transit challenges. Essentially, TCRP operationalizes research and best practices with regards to transit operations, adoption of technology adapted from related industries, and customer service enhancements. This program is crucial to the development of the transit industry as it provides a means for agencies to remain competitive against new and sometimes fleeting industry disruptors like transit network connectors (Uber, Lyft), and service growing population densities and mobility demands.</td>
<td>Funds are allocated by Congress annually. There are no minimum matching requirements.</td>
</tr>
<tr>
<td><strong>Tribal Transit Formula Grants - 5311(c)(1)(B) (link)</strong></td>
<td>Tribal transit programs continue to be set-aside funds for rural transit apportionments.</td>
<td>For FY 2022, over $35 million has been apportioned for the Tribal Transit Formula Grants.</td>

Appendix F: TAC Strategy Prioritization Exercise Results

What are your top strategies for Goal 1?

- Increasing frequency: 2
- High ridership stops have bus shelters and benches: 3
- Affordable and/or free transit fare programs: 1
- Expand the span of transit service: 5
- Prioritize ADA accessible bus stop design: 2
- Expand volunteer driver programs: 2
What are your top strategies for Goal 2?

- Zoning code revisions that improve transit connectivity to new developments
- Consistent short and mid-range transit development plans
- Determine shift times and how employees access workplaces
- Employer-sponsored shuttles
- Employee-based cost-effective transportation options between islands
- Public transit services from airports
- Survey healthcare providers, caregivers, and patients on their transportation needs
- Public transportation infrastructure needs in rural areas
- Consistent access to services for Veteran populations
- Emergency management planning
What are your top strategies for Goal 3?

1. Consistent marketing plan statewide
2. Single source of transportation information
3. Train the trainer program for education and advocacy
4. Education materials for different audiences
5. Bus buddy program
6. Access to food pantries, libraries, and other existing community services
What are your top strategies for Goal 4?

1. Grant writing assistance
2. System to identify and promote funding opportunities
3. Assess current distribution of federal formula funding
4. Statewide work group to monitor transit grant programs
5. Pool resources within counties
What are your top strategies for Goal 5?

- Statewide plan for transit technology roll-out (4)
- Transition to smart card and mobile fare payment (4)
- Update online and mobile tools for customers (4)
- Technology training program (3)
What are your top strategies for Goal 6?

4. Implement “quality of life” and “aging in place” initiatives

3. Statewide marketing campaign geared towards visitors and tourists

3. Emphasize the health benefits of using public transit

2. Green transit infrastructure

1. Establish baseline data on the impacts of transit on health
