

STATE OF HAWAII
DEPARTMENT OF TRANSPORTATION
HARBORS DIVISION
79 So. Nimitz Hwy., Honolulu, Hawaii 96813-4898

June 3, 2013

Dear Cargo Operators, Terminal Operators, Land-Based Fueling Companies and Harbor Agents:

Subject: Implementation of New Tariff Rates That Take Effect July 1, 2013 Affecting Cargo Wharfage, Storage, Demurrage and Ship-Related Activities As Provided by Chapter 19-44, Hawaii Administrative Rules

The purpose of this letter is to provide information and clarification concerning the implementation of the new tariff rates that take effect July 1, 2013 as reflected in §19-44-73 of the Amended Hawaii Administrative Rules.

A vessel entering and docking at any of our commercial harbors at or after 12:00 a.m. July 1, 2013 will be charged the fees applicable to the voyage at the July 1, 2013 rates. A representative listing of such fees, but not an all inclusive listing of these fees, includes fees for wharfage, pipeline tolls, bunkering activity and for the use of pipelines to transport or to load potable water.

A vessel entering and docking at any of our commercial harbors no later than 11:59 p.m. on June 30, 2013, will be charged fees applicable to the voyage at the rates in effect prior to July 1, 2013, with the exception that charges related to any use of harbor facilities or any services provided on or after July 1, 2013 such as bunkering charges or charges for the use of pipelines to transport or to load potable water will be assessed at the July 1, 2013 rates.

There are no changes to the tariff rates for properly approved storage of shipping devices pursuant to §19-44-43(d) nor are there changes to the tariff rates for demurrage charges pursuant to §19-44-83.

As communicated to you in our letters dated January 26, 2010 and March 1, 2010, the approved amendments to Chapter 19-44, HAR effective February 1, 2010, are available on the DOT Harbors website, <http://hidot.hawaii.gov/harbors/library>.

Revised self-report forms that reflect the new rates that take effect July 1, 2013 must be completed and submitted to report cargo related activities and user fees that occur on or after July 1, 2013. These revised self-report forms will be available on the DOT Harbors website, <http://hidot.hawaii.gov/harbors/doing-business> no later than June 26, 2013.

The following is a listing of the revised self-report forms that will reflect the new rates that take effect July 1, 2013:

Overseas Wharfage Report,
Overseas Transshipment Wharfage Report,
Inter-Intra-Island Wharfage Report,
Inter-Intra-Island Transshipment Wharfage Report 65(b) and 65(c),
Inter-Intra-Island Transshipment Wharfage Report 65(d),
Pipeline Toll Report (State) and
Pipeline Toll Report (Private)

Please note that the Harbors Division will accept, as valid, the quantities that are reported rounded to two decimal places for the units of measure –“ton” (example: 38.25 tons) and “mbf”– and the Harbors Division will accept as valid, quantities that are reported rounded to four decimal places for the unit of measure –“bbl”–. All other quantities reported using the unit of measure of “**each**,” which is generally used, but not limited to, the reporting of quantities for automobiles, shipping devices, empties and pallet load and the unit of measure “**head**” which is used to report livestock, must be reflected on these Wharfage reports as **whole numbers with no decimals**; decimals are not considered as valid reporting of the quantities for these units of measure for these types of cargo, as such, the reporting of decimals are not allowed. Reports reflecting data with decimals for units of measure “**each**” or “**head**” may be considered to be invalid reports and as reports that are not properly filed that can possibly be rejected, which may render those reports to be delinquent reports subject to delinquent report charges as provided for in §19-44-6.1.

Although the charge for empty containers was eliminated by the approved amendments to Chapter 19-44, HAR effective February 1, 2010, all empty container activity **must be reported** on the Wharfage Self-report forms. It is important to provide this information to DOT Harbors so that it can maintain accurate statistical information for container activity, including that of empty containers, at Hawaii’s harbors. It should be noted that the U.S. Army Corps of Engineers tracks this data and uses this data to make decisions that affect the Hawaii Commercial Harbors System.

Please remember to use the proper self-report forms to report cargo related activities and user fees that occur on or before June 30, 2013 by completing and submitting those forms that specify in their titles, “Rates Effective 07/01/2012 to 06/30/2013.” All activity occurring on or after July 1, 2013 must be reported by completing and submitting those forms that specify in their titles, “Rates Effective 07/01/2013 to 06/30/2014.”

Cargo Operators, Terminal Operators, Land-Based
Fueling Companies and Harbor Agents

Should you have any questions or concerns, please contact Mr. Kendrick Au, Fiscal Officer, at (808) 587-1893.

Thank you for your cooperation as we continue to proceed with the implementation of the approved amendments to Chapter 19-44, of the Hawaii Administrative Rules (HAR) that took effect February 1, 2010.

Sincerely,

A handwritten signature in black ink, appearing to read "Randy Grune". The signature is stylized with a large initial "R" and a cursive "Grune".
