HARBOR MASTER NOTICE – OAHU DISTRICT

Re: Oahu District Heavy Weather Procedures and Request to Remain In or Enter Port

I. JURISDICTION

The State of Hawaii authorized the Department of Transportation, Harbors Division (DOTH) with the care and control of all vessels and shipping within its commercial harbors primarily for the loading, off-loading, and handling of cargo and passengers from commercial cargo, passenger and fishing vessels entering and leaving or traveling within the State and its facilities [Reference HRS ¶266-1.]

II. RULES

The DOTH through its Director may adopt rules as necessary for the expeditious and careful handling of freight, goods, wares, and merchandise to be delivered for shipment or discharged on the commercial docks, wharves, piers, or landings controlled by the State [Reference HRS ¶266-3(4)], and to adopt rules for the safety of the docks, wharves, piers, and landings [Reference HRS ¶266-3(5)]

III. PREFACE

The Department of Business, Economic Development and Tourism states that about 80% of all goods used in Hawaii are imported and of this amount, 98.6% of the goods are brought in through the commercial harbors system.
