IN REPLY REFER TO:
HAR-S
2544.20

July 24, 2019

Dear Cargo Operators, Terminal Operators, Land-Based Fueling Companies, and Harbor Agents:

Subject: COURTESY REMINDER: Implementation of New Tariff Rates Affecting Vessel Dockage, Cargo Wharfage and Pipeline Toll Rates, and Port Entry Fees, Effective July 1, 2019, Pursuant to Chapter 19-44, Hawaii Administrative Rules

Pursuant to Hawaii Administrative Rules ("HAR"), §19-44-73, the rate increase that took effect July 1, 2019, is the higher of 3% or the increase in the Consumer Price Index for Calendar Year 2018 for the State of Hawaii ("SOH CPI for 2018"), as determined by the U.S. Department of Commerce Bureau of Statistics; the SOH CPI for 2018 was 1.9%, which is lower than 3%.

On July 1, 2019, the new tariff for Wharfage and Pipeline Toll Rates reflects an increase of 3% applied to the Wharfage and Pipeline Toll Rates that were in effect on June 30, 2019. The new tariff rates for vessel dockage and port entry fees are on the Exhibit to the HAR and available online at: <http://hidot.hawaii.gov/harbors/library/admin-rules/>. For your convenience, the new tariff rates for Vessel Dockage, Cargo Wharfage and Pipeline Toll Rates, and Port Entry Fees are attached to this letter.

The increased rates are applied as follows:

- Any vessel that entered and docked at any of our commercial harbors at or after 12:00 a.m. July 1, 2019, will be charged the fees applicable for the voyage at the July 1, 2019, rates. A representative listing of such fees, but not an all-inclusive listing of these fees, includes dockage fees, a facilities securities fee assessed for each container shipped, fees for wharfage, pipeline tolls, bunkering activity, and fees for the use of pipelines to transport or to load potable water.
- Any vessel that entered and docked at any of our commercial harbors no later than 11:59 p.m. on June 30, 2019, will be charged Wharfage and/or Pipeline Toll Rates applicable to the voyage at the rates in effect prior to July 1, 2019. Any charges related to any use of harbor facilities or any services provided on or after July 1, 2019, such as bunkering charges or charges for the use of pipelines to transport or to load potable water, will be assessed at the rates that become effective July 1, 2019.

Revised self-report forms reflecting the new rates that take effect July 1, 2019, must be used, completed, and submitted to report the cargo-related activities and user fees that occurred on or after July 1, 2019. These revised self-report forms are available on the Department of Transportation, Harbors Division (“DOT Harbors Division”), website at the following link: <http://hidot.hawaii.gov/harbors/doing-business/>. The following is a listing of the revised self-report forms reflecting the new rates that took effect July 1, 2019:

- Overseas Wharfage Report;
- Overseas Transshipment Wharfage Report (65a);
- Inter-Intra-Island Wharfage Report;
- Inter-Intra-Island Transshipment Wharfage Report 65(b) and 65(c);
- Inter-Intra-Island Transshipment Wharfage Report 65(d);
- Pipeline Toll Report (Private); and
- Pipeline Toll Report (State).

Please remember to use the proper self-report forms to report cargo-related activities and user fees that occur on or before June 30, 2019, by completing and submitting those forms that specify in their titles, “Rates Effective 7/01/2018 to 06/30/2019.” All activity occurring on or after July 1, 2019, must be reported by completing and submitting those forms that specify in their titles, “Rates Effective 07/01/2019 to 06/30/2020.”

The DOT Harbors Division will accept, as valid, the quantities that are reported rounded to two decimal places for the units of measure “ton” (example: 38.25 tons) and “mbf.” The DOT Harbors Division will accept, as valid, quantities that are reported rounded to four decimal places for the unit of measure “bbl.”

All other quantities reported for the unit of measure “each,” which is generally used for, but not limited to, the reporting of quantities for automobiles, shipping devices, empties and pallet load, and the unit of measure “head,” which is used to report livestock, must be reflected on these wharfage reports as whole numbers with no decimals; decimals are not considered as valid reporting of the quantities for these units of measure (“each” and “head”) for these types of cargo; as such, the reporting of decimals is not allowed. Reports reflecting data with decimals for the units of measure “each” or “head” may be considered to be invalid reports that have not been properly filed and may be rejected by the DOT Harbors Division; such rejection may render those reports to be delinquent reports subject to delinquent report fees/charges as provided for in HAR, §19-44-6.1.

Also, although the charge for empty containers was eliminated by the approved amendments to HAR, §19-44, effective February 1, 2010, all empty container activity must be reported on the wharfage self-report forms. It is important to provide this information to the DOT Harbors

Cargo Operators, Terminal Operators, Land-Based Fueling Companies,
and Harbor Agents
July 24, 2019

HAR-S
2544.20

Division so that it can maintain accurate statistical information of all container activity, including that of empty containers, at Hawaii's commercial harbors.

If you have any questions or concerns, please contact Mr. Thomas Vanairsdale, Harbors Fiscal Officer, at (808) 587-1893. Thank you for your cooperation as we continue to proceed with the implementation of the approved amendments to Chapter 19-44, HAR.

Sincerely,

DEREK J. CHOW
Deputy Director
Department of Transportation, Harbors Division
