DRIVERS PLEDGE

I pledge, as a good driver
to always be aware
that pedestrians
can be hidden from view
by stopped vehicles
on multi-lane streets.

PEDESTRIAN TIPS FOR DRIVERS

- #1 Always be prepared to stop when approaching a crosswalk. A pedestrian may be hidden from view.
- #2 Be vigilant. Always look for pedestrian movement in your direction.
- #3 Yield to pedestrians in crosswalks. Proceed when the pedestrian has safely passed your vehicle.
- #4 Be aware that pedestrians can be hidden from view by stopped vehicles on multi-lane streets.
- #5 When driving between dusk and dawn, watch for pedestrians in dark clothing. Always use your headlights.
- #6 Always watch for pedestrians when backing out of driveways or parking stalls. Children can be hidden from view.
- #7 Make sure that you are fit to drive. Any physical or medical changes can alter your driving abilities.

The number one reason for pedestrian crashes and fatalities is inattentive behavior for both drivers and walkers. Always pay attention while driving or walking!
