Keaau Comments

Do not have info about most projects to comment.
Consider doing heavy construction work during the summer breaks, other school breaks and weekends.
Roundabouts are a necessity.
Safety is more important than rapid speed. Kahakai-Malama intersection is a high priority.
Roundabout at Shower Drives is a terrible idea. Would jam up HWY 130 at a very high traffic area. Better intersection to try roundabout is Kahakai Blvd. It's past the main congested areas.
Roundabout at HS22 K-P Road, Intersection Improves at Kaloli Dr, Orchidland Dr and Ainaloa Blvd

Waimea Comments

Very high priority = HS18, HS19, HS34
#1 High priority = HS18; #2 High priority = HS19

Kona Comments

HS26 & HS27 - Increase scope of subject projects from Henry St to Honalo Junction to correct the dysfunctional and dangerous traffic conditions on Kuakini Hwy at the T-intersections of Haawina and Kalelei Roads.

Email Comments

8 responses indicating High Priority = S1, S5, S10. See additional comments for each project in the three lines below.
S1 = Double the funding allocated to Bikeway Improves and allocate funds in FFY11 for PLN & DES for project identified in Bike Plan Implementation Plan. Specifically, allocate \$1M for environ study of QK Shared Use Pathway, a Priority 1 Bike Plan Project (#81)
S5 = High priority funding for bicycle and pedestrian safety efforts.
S10 = Accelerate obligation and awarding of Round 1 proposals and Round 2 proposals and prepare a third request for proposals.
