

STIP Public Meeting, Round 1
State of Hawaii Department of Transportation Highways Division
Maui District Office Conference Room
May 23, 2007
7:00 pm – 8:15 pm

- Jerry Edlao
 - Feels an allocation to the various counties may be fairer.
 - Inquired if Maui County uses the same prioritization process as HDOT.
 - Confirmed that the STIP is a wish list and that the responsible agency must participate financially.
- Steven Kikuchi: Inquired how the survey is taken into consideration. For example, if Oahu submits 100 surveys and Maui submits a smaller number of surveys, does that determine which county receives more funds? Ans: Survey provides us with a tool to make better informed decisions about what projects to federalize and what projects not to at a certain time. This is not meant to be a popularity vote.
- George Kaya:
 - Private developers may want to fund the second phase of Lahaina Bypass.
 - Would like the environmental process (EIS) for Lahaina Bypass to be accelerated.
- Lloyd Lee: Estimates shown for MC37 may not be sufficient.
