

SECTION 506 - BEARING AND EXPANSION PLATES

506.01 Description. This work includes furnishing and placing bronze and stainless steel bearing and expansion plates according to the contract. *|

506.02 Materials. Materials shall meet conform to the following: |

Bronze and Stainless Steel Bearing and Expansion Plates 712.09(G)

The Contractor shall submit shop drawings and mill test reports to the Engineer before incorporation of the plates into the work. *|

506.03 Construction Requirements. The Contractor shall set the bearing plates in correct position. Bearing plates shall have uniform bearing over the entire area. The Contractor shall make provisions to keep the plates in correct position as the Contractor places the concrete. *|

506.04 Method of Measurement. The Engineer will not measure the bronze and stainless steel bearing and expansion plates when contracted on a lump sum basis. *|

506.05 Basis of Payment. The Engineer will pay for the accepted bronze and stainless steel bearing and expansion plates on a lump sum basis for each structure shown in the proposal. *|

The Engineer will make payment under: *|

Pay Item	Pay Unit
Bronze and Stainless Steel Bearing and Expansion Plates in _____ (___ pounds)	Lump Sum

If changes in the sizes of the bronze and stainless steel bearing and expansion plates are ordered by the Engineer, the Engineer will base the adjustment in the lump sum price on the theoretical unit price and the weight of the desired plates. *|
