

SECTION 650 - WHEELCHAIR RAMPS

650.01 Description. This work includes constructing wheelchair ramps for the physically handicapped at existing or new sidewalk locations according to the contract. *|
*|

650.02 Materials. Materials shall conform to the following: |

Bed Course Material for Sidewalks and Curbing	703.16(A)	
---	-----------	--

Joint Fillers	705.01	
---------------	--------	--

Reinforcing Steel	709.01	
-------------------	--------	--

Concrete shall conform to Section 601 - Structural Concrete and shall be Class B. |

Materials will be subject to inspection for acceptance as to condition at the latest practicable time the Engineer has the opportunity to check for compliance before or during incorporation of materials in the work. *|

650.03 Construction Requirements. Subsection 608.03(A) - Concrete Sidewalk and below shall apply to wheelchair ramps construction requirements. |

If the abutting sidewalk shows reinforcement, the Contractor shall similarly reinforce the wheelchair ramp. *|
*|

The Contractor shall require construction joint if the wheelchair ramps join existing or new sidewalks and if wheelchair ramp aprons abut drop curbs or gutters. *|
*|
*|

Demolition of existing curb and sidewalk shall conform to Section 202 - Removal of Structures and Obstructions. |

-Special drop curbs for wheelchair ramps shall conform to Section 609 - Curb and/or Gutter. |

The face of special drop curbs shall conform to the face of abutting curbs. |

The profiles of wheelchair ramps shall be such that their lower points conform to the grade of abutting edge of pavement or inverts of adjacent gutters, as applicable. |

650.04 Method of Measurement. The Engineer will measure wheelchair ramps per each complete in place. *|
*|

650.05

650.05 **Basis of Payment.** The Engineer will pay for the accepted quantities *|
of wheelchair ramps for at the contract unit price per each. *|

The price shall be full compensation for demolishing; excavating; *|
backfilling; installing reinforcing steel, concrete expansion joint materials, *|
construction joints, special drop curbs, and bed course material; and *|
furnishing labors, materials, equipment, tools, and incidentals necessary to *|
complete the work. *|

The Engineer will make payment under: *|
