Natasha and Donald,

The draft Final Terrain Model Map has been completed and is downloadable here:

<https://share.rmtowill.com/index.php/s/xlj4zccIJ3NUjxu>

The filename in jpg is: HAWAII_6_GIS_MAP_draft_1_15_17.jpg (149.3 MB)

The filename in pdf is: HAWAII_6_GIS_MAP_draft_1_15_17.pdf (184.2 MB)

One of the issues we are dealing with involves naming of the trails. Most of the ancient Hawaiian trails do not have names and it may not be considered *pono* by NHOs if we tried to name them. We intend to address this by using brackets [] and placing an identifier using the ahupua'a and/or other characteristic to identify the trail.

Please review let me know if you have any comments prior to our use of the brackets to identify the trails.

Thank you,
