SRTS SAFETEA-LU Funds Overview

- Federal funds obtained under SAFETEA-LU
 - \$8 million in SRTS funding
 - Received from 2005 to September 30, 2012
- Fund qualified projects identified by schools and communities.
- DOT solicits applications through a Call for Applications process.
- 100% federally funded
- **Reimbursable grant** program
Awardees must pay for expenses when they are incurred, and then submit for reimbursement.
- DOT role is as an oversight capacity and pass-through of federal funds only. Awardees are responsible for project implementation.

SRTS SAFETEA-LU Funds Project Requirements

- Who can receive these funds?
 - State, local or regional agencies
 - Non-profit organizations
- Projects must directly support increased safety and convenience for students in grades K-8 to walk and/or bicycle to/from school.
- Funding for established programs are considered a reoccurring cost and are therefore not eligible.
- Reimbursable expenses must be reasonable and necessary for the project.

SRTS SAFETEA-LU Funds

Project Requirements (continued)

- Non-infrastructure projects must be completed within two years from the effective date of a reimbursement agreement.
- Funding for walk or bike to school days, walking school buses, and pedestrian or bike education for the same students is limited to one year.
- **Awardees must have experience managing similar projects, the ability to fulfill State and Federal requirements for the proposed project, and have funds readily available to front.**

SRTS SAFETEA-LU Funds

Inappropriate Uses of SRTS Funds

- Reoccurring costs such as paying crossing guard salaries or funding established programs
- Planning efforts such as a walk or bike audit or efforts to put together a SRTS plan
- Projects that reorganize pick-up and drop-off primarily for the convenience of drivers rather than to improve child safety and/or walking and bicycling access
- Education programs that are primarily focused on bus safety
- Improvements to bus stops

Remember the Safe Routes to School goals

- Where it's safe, get kids walking and biking
- Where it's *not* safe, make changes

SRTS SAFETEA-LU Funds

Next Steps

- Seventh round of call for applications for **non-infrastructure projects only** is anticipated in March 2022.
- Approximately \$560,000 is anticipated to be available.
- Interested parties can begin now by contacting all stakeholders and putting together a SRTS plan.

Steps to create a SRTS program

- Bring together the right people
- Gather information and identify issues
- Find solutions
- Make a plan
- Get the plan funded
- Act on the plan
- Evaluate and make changes if needed
