

## SAFE ROUTES TO SCHOOL PROGRAM

---

insert space

**PURPOSE** The Hawaii Department of Transportation (HDOT) manages the federal Safe Routes to School (SRTS) program, which has the following goals:

1. *Enable and encourage children, including those with disabilities, to walk and bicycle to school;*
2. *Make bicycling and walking to school a safer and more appealing transportation alternative, thereby encouraging a healthy and active lifestyle from an early age; and*
3. *Facilitate the planning, development, and implementation of projects and activities that will improve safety and reduce traffic, fuel consumption, and air pollution in the vicinity of schools.*

In addition, a state SRTS program is established within HDOT that shall enhance traffic safety around schools, enable and encourage children to walk and bicycle to school, and make bicycling and walking to school a safer and more appealing transportation alternative.

### CREATING A SRTS PROGRAM

Schools and communities interested in SRTS should see the handout below that provides guidance on creating a SRTS program.

In addition, the slideshow presentation below provides an overview of the federal SRTS program in Hawaii.

Creating a SRTS plan is an important step in creating a SRTS program. See the document below for a list of information HDOT suggests including in a SRTS plan.
