DECEMBER 2017**

DEPARTMENT OF TRANSPORTATION  
REPORT TO THE LEGISLATURE

BACKGROUND

Under Hawaii Revised Statutes (HRS) Section 76-11.6, Governor David Y. Ige, authorized the Department of Transportation (Department) to create and establish an Office of Security and Law Enforcement whose mission is to oversee, manage and direct operations to provide a safe and secure environment for the travelling public consistent with existing Federal statutes. This office will design, coordinate and oversee/manage/administer the department's Airports, Harbors and Highways division law enforcement and security requirements and to resolve existing oversight, contractual and staffing issues. Under this office a unified command structure will provide the Department with command and control of law enforcement and security to promote the freedom of movement for people and commerce at all of the Department's critical infrastructures and systems.

The office will initially be comprised of management and administrative support staff and its immediate task is to transfer the 57 Deputy Sheriffs and two (2) administrative staff positions assigned to the Airport Sheriffs Detail (ASD) at the Daniel K. Inouye International Airport (HNL) from the Department of Public Safety (PSD) to the Department. This will be accomplished through PSD's supplemental budget bill which will relinquish, detach, and transfer the 59 "U" funded positions to the Department.

Congruent with the acceptance of the 59 positions, the Department has submitted TRN-06 (18) which will provide the Director of the Department with statutory law enforcement and security authority consistent with the existing law enforcement and security authority possessed by the PSD Director. This statutory law enforcement and security authority will allow the Department to resolve oversight, contractual and staffing issues under one program office with a unified command structure.
