December 28, 2021

The Honorable Ronald D. Kouchi  
President and Members of the Senate  
31st State Legislature  
State Capitol, Room 409  
Honolulu, Hawaii  96813

The Honorable Scott K. Saiki  
Speaker and Members of the House of Representatives  
31st State Legislature  
State Capitol, Room 431  
Honolulu, Hawaii  96813

Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

For your information and consideration, I am transmitting a copy of the Photo Red Light Imaging Detector System Pilot Program Report as required by Act 30 of 2020.

In accordance with HRS 93-16, I am also informing you that the report may be viewed electronically at: https://hidot.hawaii.gov/library/reports/reports-to-the-legislature/

Sincerely,

JADE T. BUTAY  
Director of Transportation
DEPARTMENT OF TRANSPORTATION'S
REPORT TO LEGISLATURE
OF
THE STATE OF HAWAII
REQUIRED UNDER
SECTION 8, ACT 30, SESSION LAWS OF HAWAII
2020

ANNUAL REPORT: "PHOTO RED LIGHT IMAGING DETECTOR SYSTEM PILOT PROGRAM"
FROM ACT 30
SESSION LAWS OF HAWAII 2020

STATE OF HAWAII
DEPARTMENT OF TRANSPORTATION
DECEMBER 2021
DEPARTMENT OF TRANSPORTATION'S
REPORT TO THE LEGISLATURE
OF THE STATE OF HAWAII
REQUIRED UNDER
SECTION 8 ACT 30 SESSION LAWS OF HAWAII 2020

Annual report to the Hawaii Legislature on the Photo Red Light Imaging Detector Pilot Program

Introduction:

Section 8 Act 30 Session Laws Hawaii 2020 requires the Department of Transportation (DOT) to report annually until 2024 on the status and progress of the photo red light imaging detector pilot program on the implementation of the pilot program with statistical data on the program. The report will also recommendations on how to improve the pilot program, if it should be made permanent, and funding estimates.

The DOT worked with the City & County of Honolulu’s Department of Transportation Services to select the list of locations 10 intersections, and four alternates, for the pilot project. The locations are:

The Request for Proposals for the project was released on December 21, 2020, with a deadline of January 19, 2021 for offerors to submit proposals.
As the contract proposals came in much higher than anticipated, DOT submitted legislation during the 2021 legislative session to increase the amount of project. After Act 133, Session Laws of Hawaii 2021 was enacted, DOT negotiated to move the contract forward with the selected vendor and are waiting for final approval to proceed.

Redflex was selected for the pilot project. They have a team on standby to begin as soon as the contract is signed. Work will begin with the engineering studies to select the final 10 intersections.

While infrastructure improvements, if any, are made, Redflex will conduct the mandatory studies to determine a baseline average of the number of red light traffic-control signal violations before the lights are installed. Another baseline study will be conducted after the signals are removed to determine if the project was successful in changing the behavior of drivers.

The administrative rules for the red light project have been signed by Governor Ige and went into effect on December 26, 2021.

The DOT has also begun working to develop an educational campaign that will begin in January 2022.
